

## *FIREMAN'S CONTROL PANEL*

- AUDIO MESSAGE CONTROL FOR;
  - EVACUATE
  - ALERT
  - START OF TEST
  - END OF TEST
  
- AUTOMATIC PLANT CONTROL
- MANUAL PLANT ISOLATION
- EXTRACTION FAN CONTROL
- WORKS WITH ALL EMS 5000 PANELS
- KEYSWITCH ACCESS
- 230V. 50Hz OPERATION
- RS 232 LINK TO CONTROL PANELS

# 5000 *FirePoint*

### **Overview**

The system 5000 FIREMANS PANEL is designed using EMS radio technology allowing flexibility and expansion of wire-free, voice evacuation fire detection systems.

The fireman's panel interconnects into all EMS system 5000 controllers. This allows manual operation of voice messages via onboard pushbuttons with LED verification of the activation. The manual controls allow start of test, end of test, evacuate, alert & silence messages to be sent to the voice enhanced sounders. The panel also has the ability for isolating and reinstating plant manually via an onboard keyswitch; with LED's showing current status.

The fire panel and its peripheral equipment benefit from over 20 years of design, development and manufacturing experience providing leading edge solutions to complex radio technology problems.

## Specification

---

<b>PHYSICAL:</b>	<b>DIMENSIONS:</b>	330 x 450 x 116mm(Including back box)
	<b>FASCIA:</b>	Injection moulded, with steel backbox
	<b>COLOUR:</b>	Two tone contrasting beige
<b>ENVIROMENT:</b>	<b>TEMPERATURE:</b>	-10 to 55 degrees C
	<b>HUMIDITY:</b>	Up to 75% non-condensing
<b>SUPPLY:</b>	230v 50Hz	
<b>BATTERY SPACE:</b>	2 x 12volt 7AH batteries	
<b>OUTPUTS:</b>	1 x RS232 serial port 1 x Power supply and charger 230v AC 50 Hz Transformer giving a total of 2 amps.	
<b>STANDARDS:</b>	Designed to comply with BS5839 part4 and EN54 part 2	

### ORDERING INFORMATION:

5-\*\*\*\* Fireman's control panel  
5-5380/RV Voice enhanced sounder
